

## WELCOME TO OUR Market Snapshot

“Owner-occupiers and first-home buyers were the most active groups, with investors also active in Christchurch’s tertiary area due to an increase in university students.

Some vendors are holding firm on their price expectations and are optimistic about the market improving, while others are willing to adjust to meet the market. Open home attendance and auction activity varied, with some areas seeing good numbers of attendees.

Interest rates, high numbers of listings, and steady prices are influencing market sentiment, which is positive. Local agents predict that activity will increase over the next few months.”
